Re: Installer qualification

Dear Karl:

This letter is written to address the 'qualification' of your field staff to install 3M Fire Barrier products for common fire stop conditions.

West Coast Firestopping, Inc has been installing 3M Fire Barrier products for several years, specifically concerning fire stop conditions related to slab-edge/curtain-wall fire safeing, grease and air duct protection, joint treatments (top-of-wall), and standard through-penetrations. West Coast Firestopping, Inc meets all 3M Fire Protection Products' qualifications to be deemed a "3M Trained Installer."

Should you or your General Contractor have any further questions or concerns, please don't hesitate to contact me at (714) 366-7211. Thank you very much for your time and consideration.

Sincerely,

Gary Charles
Account Representative
